Recipe by: Laura Vitale

Serves 6 to 8

**Prep Time: 20 minutes**

**Cook Time: 15 minutes**

## Ingredients

- 7 Egg Yolks
- ¾ cup of Granulated Sugar
- 2 cups of Whole Milk
- 1 ¾ cup of Heavy Cream
- 3 1/2 Tbsp of Instant Coffee Granules
- ¼ tsp of Salt
- ¾ cup of Chocolate Chunks or Chocolate Chips

1) In a large bowl, whisk together the eggs and sugar for 3 to 4 minutes or until the mixture turns a thick pale color, set aside.

2) In a medium saucepan, add the milk, cream, instant coffee, and bring a simmer but don't let it boil.

3) Whisk 1 cup of the hot mixture into the egg and sugar mixture and whisk until smooth.

4) Pour the egg mixture into the saucepan with the remaining milk and egg mixture and cook over low heat for about 5 minutes or until the mixture thickens.

5) Strain the mixture through a fine sieve in a large bowl, cover with plastic wrap making sure that the plastic wrap is actually touching the cream mixture, refrigerate for a minimum of 4 hours or up to overnight.

6) Make sure to put your ice cream machine insert in the freezer overnight.

7) Once the mixture is nice and cold, add it to your frozen ice cream machine insert. Turn the ice cream machine on and freeze according to manufacturers instructions (mine takes about 25 minutes).

8) Once you see that the ice cream is just about frozen all the way, add in the chocolate chips or chocolate chunks and continue to let it churn in the machine until fully frozen. Serve right away or freeze it in an air tight container for up to a month.
